

## Using the Atlas:

*If you are interested in the San Gabriel Watershed in general, we suggest that you page through this document and spend some time on the pages that you find of interest. The Atlas is organized into numbered sections.*

**General Information** about the watershed and the region can be found on pages 3 - 6.

The **Geology of the Watershed**, including an overview of the sediments that make up the watershed, is presented on pages 7 - 8.

Discussions of the **Watershed Water Cycle** are found on pages 9 - 10.

Information regarding the **Surface Water** and **Groundwater** within the basin can be found on pages 11 - 13.

**Water Quality** and **Issues** surrounding the watershed can be found on pages 14 - 21.

A **Glossary of Terms** used in this Atlas can be found on pages 24 - 30.

A list of **References** can be found on pages 31.

## Letter

## Table of Contents:

Preface and Contents .....	2
Watershed Introduction .....	3
Watershed History .....	4
Watershed Land Use .....	5
Watershed Characteristics .....	6
Watershed Geology .....	7
Watershed Soils .....	8
Hydrologic Cycle .....	9
Watershed Climate .....	10
Groundwater Basin.....	11
Watershed Surface Water.....	12
San Gabriel River Flood Control.....	13
Watershed Water Quality .....	14
San Gabriel River Water Quality .....	15
Watershed Chemistry .....	16
Upper Watershed Chemistry .....	18
Middle Watershed Chemistry.....	19
Lower Watershed Chemistry.....	20
Sampling History.....	21
Watershed Sampling Proposal.....	22
Watershed Sampling Implementation Budget.....	23
Glossary .....	24
References .....	31
Acknowledgements .....	32
